Directions:

1. Remove the Wheel of Fortune from the deck. Then shuffle in your question and cut the cards.
2. Deal seven cards into a stack and add the Wheel of Fortune. Shuffle the cards again and cut them one last time.
3. Then lay out one card in each position, facedown. Next, add another card until each position has two cards, using up all eight cards.
4. Flip over each set of cards, in each position, and look for the Wheel of Fortune. The placement of the Wheel of Fortune will provide you your answer. The rest of the cards will shed light onto the situation.
